STATE CLEARINGHOUSE

---

# NEWSLETTER

**June 1 through 15, 2003**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **June 1 through 15, 2003.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse.html#clearinghouse](http://www.opr.ca.gov/clearinghouse.html#clearinghouse)

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Phillip Crimmins (for projects in Northern California)  
Scott Morgan (for projects in Southern California)

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

DATE: MAY 15, 2003  
TO: ALL CEQA LEAD AGENCIES  
FROM: TERRY ROBERTS, STATE CLEARINGHOUSE  
RE: ACKNOWLEDGEMENT LETTERS FOR CEQA DOCUMENT SUBMITTALS

Due to recent budget cuts we are no longer able to provide written acknowledgement of the receipt of your Environmental Impact Report or Negative Declaration for state review. We will discontinue this service effective June 1, 2003. You may call the State Clearinghouse at (916) 445-0613 to request verbal confirmation, or access that information by visiting our CEQAnet database at [www.ceqanet.ca.gov](http://www.ceqanet.ca.gov). We apologize for any inconvenience this may cause you.

The State Clearinghouse will continue to provide a closing letter with any state comments on the date following the close of the review period.

## ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE 1999 through 2002

	NOP	EIR	ND/MND	NOD	NOE	EA	EIS	OTHER	DOCUMENT TOTAL	Total Projects
1999	602	481	2007	1808	2699	41	22	177	7,837	6,715
2000	613	475	2243	2580	3840	78	16	386	10,231	8,562
2001	703	524	2612	2851	6083	75	13	422	13,283	11,279
2002	648 (5%)	546 (4%)	2675 (20%)	3115 (24%)	5738 (43%)	66 (0.5%)	14 (0.1%)	409 (3%)	13,211 (100%)	---

### KEY:

NOP	Notice of Preparation
EIR	Draft Environmental Impact Report
ND/MND	Negative Declaration/Mitigated Negative Declaration
NOD	Notice of Determination
NOE	Notice of Exemption
EA	Environmental Assessment (federal)
EIS	Environmental Impact Statement (federal)
OTHER	Other types including Final EIRs, Early Consultation, etc.

### NOTES:

Percentages in parenthesis indicate the percentage of total documents for calendar year 2002.

There are more Total Documents than Total Projects because there are often multiple environmental documents filed for any individual project.

# CEQA & Planning Case Law

## **Summary of Recent CEQA & Planning Case Law**

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

**No Cases have been selected for the period of June 1-15, 2003.**

*Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.*

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, June 02, 2003</u></b>			
2002101101	City of Orange Cove General Plan Update Orange Cove, City of Orange Cove--Fresno Comprehensive update of Land Use Element, Circulation, Open Space, Conservation, Safety and Noise Elements of the Orage Cove General Plan. These were last updated in 1979.	<b>EIR</b>	07/16/2003
2003042008	Lion's Head Summer Dam Fish & Game #3 --Sonoma The applicant, Lion's Head Ranch, proposes to annually erect a flashboard type summer dam on Austin Creek, tributary to the Russian River in California's Sonoma County.	<b>EIR</b>	07/16/2003
2001112085	Lower Northwest Interceptor Project Sacramento County --Sacramento The LNWI project involves construction of wastewater conveyance facilities as well as facilities to support ongoing operation and maintenance.	<b>FIN</b>	
2002071113	Santee General Plan Update Santee, City of Santee--San Diego The primary objective of the proposed project is to undertake a comprehensive update of the City's General Plan to enable it to serve as a guide through the year 2020. The General Plan is the primary policy document for the City and is the basis for all decisions regarding the physical development of the City. It expresses the community's vision of its future and is a guide for both long-term and day-to-day decisions and actions of the City. The City's current General Plan was adopted in 1984. Since that time, independent amendments have been made to the various Elements which comprise the Plan; however, the General Plan has not been comprehensively updated since it was adopted in 1984.	<b>FIN</b>	
2002101026	Mariposa County Composting Solid Waste Facility Mariposa County --Mariposa A 52,890 square foot waste composting facility on 3.1 acres of the existing landfill site. Designed to accept up to 80 tons per day (tpd) of solid waste, with an average operational capacity of 40 to 60 tpd. The facility will be designed to maximize recycling from the incoming municipal solid waste (MSW) and the non-compostable residual materials. The project will be in operation for at least 20 years, and with proper maintenance, could be extended another 10-15 years.	<b>FIN</b>	
2002111049	Laguna County Sanitary District Stockpile Removal Project Santa Barbara County --Santa Barbara The Laguna County Sanitation District provides municipal wastewater collection, treatment and disposal for the unincorporated Santa Maria area, the town of Orcutt and a portion of southern part of the city of Santa Maria. The District currently collects, treats and disposes approximately 2.5 million gallons of wastewater per day. The treated effluent is disposed of by land irrigation. When irrigation cannot be performed, the effluent is stored in reservoirs. A large reservoir (290 million	<b>FIN</b>	

## CEQA Daily Log

Documents Received during the Period: 06/01/2003 - 06/15/2003

	gallons) was constructed on the District property during 1991-1993 (the Reservoir).		
2003061006	Ambassador Campus Planned Development Pasadena, City of Pasadena--Los Angeles The proposed project calls for a not-to-exceed total of 1,431 residential dwelling units. The West Campus would be developed with a maximum of 696 residential units and would include the removal of a number of existing structures, including Ambassador Auditorium. Conversion of historic mansions for residential, office, and/or visitor-serving uses would also occur on the West Campus. The East Campus is proposed as a higher density residential neighborhood with a maximum of 735 new dwelling units. A small amount of neighborhood serving retail development is also contemplated for the East Campus.	<b>NOP</b>	07/01/2003
2003061012	El Camino Facilities Master Plan El Camino Community College District Torrance--Los Angeles Approval of a Campus Facilities Master Plan to accommodate 25,000 FTE students in 2020. A net decrease of 5,400 square feet is proposed at buildout.	<b>NOP</b>	07/01/2003
2003062002	Harding Drain Bypass (Pipeline) Project Turlock, City of Turlock--Stanislaus Construct a new wastewater outfall pipeline to eliminate discharge of City of Turlock's wastewater effluent to the harding drain (man-made agricultural drainage ditch) and construct a new outfall to the San Joaquin River.	<b>NOP</b>	07/01/2003
2002031009	Fairmead Freeway Conversion and Interchange Project. 06-MAD-99 KP 31.54/36.37 (PM 19.6/22.6), EA 06-293300 Caltrans #6 --Madera Convert a segment of State Route 99 from a four-lane expressway to a six-lane freeway and construct an interchange near Road 20 and Avenue 2 1/2 near the community of Fairmead in Madera County. The conversion would take place between kilometer post 31.54 (post mile 19.6), which is approximately 1.45 kilometers (0.9 miles) south of Avenue 21 1/2, and kilometer post 36.37 (post mile 22.6), which is approximately 0.18 kilometers (0.1 mile) south of the separation of State Routes 152 and 99 (Figures 1-1 and 1-2). Problems with this section of State Route 99 include lack of route continuity, roadway deficiencies, safety and operational problems, and increased traffic demand.	<b>Neg</b>	07/01/2003
2003021095	Conditional Use Permit No. 02-218/Tract Map No. 33937 Los Angeles County Department of Regional Planning --Los Angeles The proposed project is a request for a Tentative Parcel Map to subdivide the subject property into 113 condo units.	<b>Neg</b>	07/01/2003
2003042098	Rocklin Elementary School Expansion Project Rocklin Unified School District Rocklin--Placer The project would expand the Rocklin Elementary School in order to replace and expand the number of portable classrooms, upgrade recreational facilities, and add new classrooms and a gymnasium. Additional components of the Project include realignment of parking areas, addition of new parking and a new bus drop-off area, and new landscaping. The Project consists of two separate	<b>Neg</b>	07/02/2003

## CEQA Daily Log

Documents Received during the Period: 06/01/2003 - 06/15/2003

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Monday, June 02, 2003</u></b>			
	components: 1) New Construction, and 2) Operation of the facilities.		
2003061001	7th Amendment - Central Project Area Monrovia, City of Monrovia--Los Angeles The redevelopment agency of the City of Monrovia is proposing a seventh amendment to the amended redevelopment plan for project area No. 1, the Central Redevelopment Project. The proposed seventh amendment would reinstate the City of Monrovia Redevelopment Agency's eminent domain authority over non-residential zoned properties within project area no. 1. The proposed seventh amendment does not alter the boundaries of the project area.	<b>Neg</b>	07/01/2003
2003061002	GPA-2003-03, ZC-2003-04, and TT-14744 Hesperia, City of Hesperia--San Bernardino A General Plan Amendment, zone change, and tentative tract to create a 104-lot single-family residential subdivision on 57.18 acres located on the south side of Ranchero Road between Topaz Avenue and the logical extension of Primrose Ave.	<b>Neg</b>	07/01/2003
2003061003	Vista Del Sol Plan Amendment #IV-03-02 and Rezoning #1-03-09 Madera, City of Madera--Madera A general plan amendment is proposed to change the designation of the area occupied by the existing apartments, along with the expansion from low density residential to medium density residential. A rezoning is also being proposed for the approximately 15 acre project site to change the existing zoning from PD 4500 to PD 3000, planned development zone. This would bring the entire apartment complex into clear consistency with the general plan and zoning code. The approximately 7 acre remainder would retain the existing low density residential designation and PD 4500 planned development zone to be subdivided into 22 single family lots and a one acre remainder for future development as a daycare preschool facility.	<b>Neg</b>	07/01/2003
2003061004	El Jaro Creek Erosion Control Demonstration Project Cachuma Operation and Maintenance Board Lompoc--Santa Barbara Three erosion control projects will be constructed to assist landowners with solutions to water quality and erosion in El Jaro Creek, tributary to Salsipuedes Creek. The projects involve a floodplain enhancement to reduce bank erosion, removal of an undersized culvert, and stabilization of the streambank to prevent erosion, and stabilization of an exposed side draw. The project will directly enhance instream and riparian habitat, which will benefit Southern California steelhead, California red-legged frog, Southwestern pond turtle, and Southwestern willow fly catcher.	<b>Neg</b>	07/01/2003
2003061005	Fish Passage Enhancement Near Jalama Road Bridge at Salsipuedes Creek Cachuma Operation and Maintenance Board Lompoc--Santa Barbara A steelhead migration passage impediment exists near the Jalama Road Bridge crossing over Salsipuedes Creek. The impediment is a concrete grade control structure immediately downstream of the bridge that spans the width of the active channel and acts to preserve the integrity of the bridge. The project will modify the structure to create a migration path for fish during low flow periods, by constructing three step pools in the bedrock outcrop situated along the bank.	<b>Neg</b>	07/01/2003

<b><u>Documents Received on Monday, June 02, 2003</u></b>			
2003062003	Rezone Application No. 2003-07 - Ray Gritton Stanislaus County --Stanislaus Request to rezone 1.01 acres from A-2-40 (General Agricultural) to PD (Planned Development) to allow the development of a commercial/warehouse project. The project development plan indicates two buildings of 7,130 square feet each, along with a possible 2,000 square foot building in the future. It will be served by public sewer, water and storm drainage systems. The General Plan designation for the site is Planned Development, and the Salida Community Plan Designation is Planned Industrial.	<b>Neg</b>	07/01/2003
2003062004	Vesting Tentative Parcel Map Application No. 2003-09 - Jeffery E. Arambel Stanislaus County Patterson--Stanislaus Request to create three 40 +/- acre parcels and a 60 +/- acre parcel from a 181.6 +/- acre site located in the A-2-40 (General Agriculture) zoning district.	<b>Neg</b>	07/01/2003
2003062005	Coleman Elementary School Reconstruction San Rafael, City of San Rafael--Marin The proposed project would include the demolition of all of the existing buildings and the removal of several trees within the campus. The demolition would be followed by the construction of new modular structures, reconfiguration of the play areas, improvements to circulation and new on-site parking, and new landscaping. Current structural floor space would be increased by 8,107 square feet to a total of 39,597 square feet. The main frontage would be relocated from Rafael Drive to Belle Avenue to enhance traffic flow and reduce congestion and 16 on-site parking spaces would be added.	<b>Neg</b>	07/01/2003
2003062006	Vino Farms Russian River Bank Stabilization Sonoma County Permit and Resources Management Department Healdsburg--Sonoma Request for a Zoning Permit to temporarily relocate the low flow channel of the Russian River and stabilize and revegetate approximately 1,200 feet of eroding streambank of the east side of the Russian River just below the confluence with Dry Creek.	<b>Neg</b>	07/01/2003
2003062007	Biggs Extension Canal Scour Repair Caltrans #3 Oroville--Butte The proposed project will place rock slope protection (RSP) around pier and abutment footings and under the dock of the Biggs Extension Canal Bridge (No. 12-0004) on State Route 99 in Butte County.	<b>Neg</b>	07/01/2003
2003062008	San Lorenzo Urban River Plan, General Plan and Local Coastal Plan Amendment Santa Cruz, City of Santa Cruz--Santa Cruz San Lorenzo Urban River Plan, General Plan and Local Coastal Plan amendment. The Plan promotes conservation and enhancement of the river habitat area, with recommendations for recreation and community uses. Included are recommendations and guidelines for habitat enhancement, public access, river trail amenities, recreational use, public art, and community programs. The Plan updates previous outdated plans.	<b>Neg</b>	06/23/2003

## CEQA Daily Log

<b><u>Documents Received on Monday, June 02, 2003</u></b>			
2003062009	City of Roseville Environmental Utilities Department Roseville City School District Roseville--Placer The City of Roseville is proposing to discharge tertiary-treated wastewater at three new locations: two discharges are proposed for Pleasant Grove Creek and a third discharge is proposed for Dry Creek. The treated wastewater is generated by the Dry Creek and Pleasant Grove Wastewater Treatment Plant in Roseville, CA. The primary purpose of these outfalls is to comply with two National Pollution Discharge Elimination System permits that were issued by the California Regional Water Quality Control Board for the discharge of recycled water. A second objective is to allow for a maximum flexibility in the management of the City's recycled water distribution system, while providing benefits for fisheries along Dry Creek and Pleasant Grove Creek.	<b>Neg</b>	07/01/2003
2003062010	I-205/Mountain House House Parkway Interchange Improvement Project Mountain House Community Services District Tracy--San Joaquin The Mountain House Community Services District (MHCSO) proposes to widen the existing two-lane I-205 Mountain House Parkway to six lanes with shoulder, pedestrian, and bicycle lane allowances. Additionally the proposed project will add the eastbound Mountain House Parkway loop on-ramp to alleviate traffic congestion and maintain an acceptable LOS in the areas as the Mountain House Community develops. This project is 100 percent privately funded.	<b>Neg</b>	07/01/2003
2003062011	City of Dorris Library Project Dorris, City of Dorris--Siskiyou Construct and maintain a new 3000 square foot public library with eleven on-site parking spaces and provisions for future expansion to 4250 sq. ft. with five additional parking spaces. The project will have access from W. Third St. The project includes the extension of Third St. approx. 200 ft. and will include paving, curbs, and sidewalk.	<b>Neg</b>	06/23/2003

	water source becomes inadequate, or emergencies such as earthquakes or fire disrupts CVWD's normal source of water supply. The project also entails the construction of an aboveground 4-foot high electrical cabinet that will house telemetry and electrical controls. The project site for the metering vault and pressure reducing valve vault are located within Crescenta Valley County Park, which is owned by the County of Los Angeles, Department of Parks & Recreation. The pipelines are located within the City of Glendale.		
2003061018	<p>ENV-2003-2753-MND Los Angeles City Planning Department Los Angeles, City of--Los Angeles</p> <p>The project is the rehabilitation of 11 existing historic single and multi-family buildings and a Church, and the new construction of 5 additional 2-story buildings ranging in height from 22-feet, 8-inches to 24-feet, 8-inches. The rehabilitated buildings will be reconfigured to contain a total of 17 residential units. The new buildings will contain 20 residential units. There will be a total of 47 residential units on the site. The existing church will remain a place of worship. Of the 47 units, 45 will be rented to low and very low-income seniors, one will be occupied by a caretaker and one will be used by the church. There will be 2 existing structures on the site (an illegal addition to a historic structure and a garage) which will be demolished. Both structures are non-contributing to the Highland Park Historic Preservation Overlay Zone. The project will also provide a community room for residents and will have courtyards, landscaped open space and a community garden for residents. Entitlements for the project will include Zoning Administrator's Adjustments for reduced side yards, fence height and private open space requirements, an alley vacation, a Specific Plan Exception from the Plan's requirements for no lot ties between more than 2 lots and that all residential units in multiple - family residential buildings be 2 or more bedroom units and a Certificate of Appropriateness for the rehabilitation and/or demolition of historic resources.</p>	<b>Neg</b>	07/02/2003

<b><u>Documents Received on Tuesday, June 03, 2003</u></b>			
2001041038	Ivanhoe Public Utility District Water Distribution System Improvements Safe Drinking Water State Revolving Fund Project #5410019-01 Ivanhoe Public Utility District Ivanhoe--Tulare The proposed project consists of the construction of a water distribution system that includes the installation of pipelines, valves, boring and water services. The pipelines will replace existing water lines that do not have adequate separation from existing sewer lines. In addition to the pipeline improvements, a domestic water well and appurtenances will be constructed. This well will be operated by both electrical power and a natural gas engine. The proposed improvements will be connected to the District's existing water system.	<b>NOD</b>	
2002031106	Palm and Carnation Avenue Street Ends Improvements Project San Diego, Port of Imperial Beach--San Diego The Project involves the renovation and enhancement of public coastal access ways and view corridors for the western termini of Palm and Carnation Avenues within the City of Imperial Beach. The project will provide public safety and access, particularly for the disabled, shoreline protection, and improved emergency vehicle access.	<b>NOD</b>	
2003021026	Doshi Open Spaec Encroachment, AD 03-030, Log No. 02-14-023A San Diego County Department of Planning and Land Use --San Diego The proposed project is an Administrative Permit for an Open Space Encroachment pursuant to County Board Policy I-100. The policy states that "those encroachments, which in the judgment of the Director of Planning and Land Use, are minor in nature, involve no significant environmental impacts, and will not significantly damage the integrity of the easement shall be reviewed and approved, conditionally approved or denied by the Director of Planning and Land Use." Specifically, the applicant, Mr. Doshi, proposes to encroach through an existing open space easement to accommodate a 10-foot by 70-foot equestrian/ pedestrian trail. The trail will connect Rainbird Road to Mesa Estates Road along the northerly boundary of the recently approved Tentative Parcel Map 20669 property. Approximately 70-feet along the south end traverses through the Open Space Easement, for which Mr. Doshi requests approval pursuant to Board Policy I-100. The encroachment will not involve the construction of any structures or improvements, except for minor clearing of brush and layering of mulch.	<b>NOD</b>	
2003022045	Polaris Creek Meadow Restoration Project Tahoe Conservancy --Placer The California Tahoe Conservancy (CTC) is considering restoring the wetland area of Polaris Creek Meadow currently impacted by the emplacement of fill. The proposed restoration project would establish the wetland function of this portion of the meadow. The previously disturbed site would be restored to provide wildlife habitat for native species and would allow Polaris Creek better access to its floodplain at the project site and to improve fish habitat in Polaris Creek by improving water quality. The proposed wetland area would help improve water quality by removing sediment and nutrient from flows that drain into Lake Tahoe. The re-establishment habitat would enhance the visual/ aesthetic qualities of the site by replacing the highly disturbed fill with a natural system that also provides wildlife habitat. The original wetland meadow would be re-established by removing the existing contaminated fill from the site and re-vegetation with native plant	<b>NOD</b>

	species. The proposed project will assist in achieving the Tahoe Regional Planning Agency's goal to restore 1,100 acres of former stream environment zone lands within the Tahoe Basin.		
2003031091	Thuen Minor Residential Subdivision; TPM 20585; Log No. 00-08-052 San Diego County Department of Planning and Land Use Vista--San Diego The project is a minor subdivision of an 8.01-acre Thuen property into two legal parcels: 2.11 acres for Parcel 1 and 5.9 acres for Parcel 2. Proposed Parcel 2 contains an existing residential structure septic field, driveway, landscaping and native habitat lands. Parcel 1 supports native habitat lands. The project includes grading on proposed Parcel 1 for a single-family home, septic field and driveway. Both parcels will be provided water by Vallecitos Water District and fire service by Vista Fire Protection District.	<b>NOD</b>	
2003032083	Lake Davis Water Treatment Plant Improvements Plumas County Portola--Plumas Improvements to existing water treatment facility, with no increase in treatment capacity.	<b>NOD</b>	
2003041136	Boys & Girls Clubs of Conejo and Las Virgenes, Los Cerritos Middle School Site Conejo Valley Unified School District Thousand Oaks--Ventura The project consists of an approximately 10,100 square foot building proposed for development on the Los Cerritos Middle School Campus. The proposed Club location is immediately west of the existing gymnasium and would have a parking lot with driveways providing access to and from Avenida de las Flores. The purpose of this project is to provide a Boys and Girls Club for use before and after the school day. The Club facilities would be available for use by Los Cerritos Middle School during the school day for academic purposes. Approval of a joint venture agreement between the Conejo Valley Unified School District, within which the Los Cerritos Middle School is located, and the Boys & Girls Clubs of Conejo and Las Virgenes is proposed that would provide for the joint use of the new Boys & Girls Club and existing school facilities.	<b>NOD</b>	
2003069002	Lake Nacimiento Tributary Outfall Fish & Game #3 --San Luis Obispo The project is the filling of a 410-foot portion of a drainage swale, which flows into an unnamed tributary to Lake Nacimiento.	<b>NOD</b>	
2003069003	Napa River Tributary Bridge Replacement Fish & Game #3 --Napa The project is the removal and replacement of an existing wooden bridge that crosses an unnamed tributary to the Napa River between the Joseph Phelps Vineyards River Ranch farming headquarters and the recently constructed River Ranch Farmworker Housing Center located west of Silverado Trail, approximately 0.4 miles north of Talpin Road in Napa County. The wooden bridge will be replaced with a new precast concrete bridge with concrete abutments placed beyond the top of bank of the existing stream channel. The existing bridge consists of stone abutments that were built into the original stream channel many years ago. As part of this project, these stone and concrete abutments will be completely removed from the watercourse to allow the channel to return to its	<b>NOD</b>

Issuance of a Streambed Alteration Agreement Number 1600-2003-0265-3 pursuant to Fish and Game Code Section 1601.	<b>NOE</b>	
2003068041	Routine Maintenance Creeks and Channels with the City of Fairfield Fish & Game #3 Fairfield--Solano Periodically scheduled activities necessary to maintain the water transport capacity of stream channels, and maintain the structural and functioning integrity of existing flood control and sediment detention structures on or affecting streams. Maintenance activities which both parties agree may be considered routine include the following: clearing of debris in streams sufficient to restore water flow, bank stabilization and erosion control using bio-engineered techniques, removal of hazardous man-made structures from water bodies for public safety, and habitat improvement.	<b>NOE</b>	
2003068042	Miliken Creek Diversion Dam Cleaning Fish & Game #3 Napa--Napa Annual maintenance on the intake area of the dam. The valve at the base of the dam will be opened to allow the water to flow down Miliken Creek and dewater the area that is to be cleaned. A primary and secondary silt dam consisting of hay bales and filter fabric will be built within approximately 300-feet downstream of the dam. A pump and hose will be used to wash the silt and debris from the diversion area and release it in the water column downstream to the silt dam. Upon completion of maintenance, the silt dam is located on the top of a natural waterfall and fish barrier that is approximately 50-feet high from the water's surface. Miliken Creek does contain a population of steelhead, but due to downstream barriers, does not contain large numbers.	<b>NOE</b>	
2003068043	Sycamore Creek Tributary Dented Pipeline Repair Fish & Game #3 Clayton--Contra Costa Repair of an underground pipeline along a tributary to Sycamore Creek, just upstream from the ranch pond area, an area approximately 12-feet wide by 50-feet long by 20 feet deep. This area will be excavated using a trench box to locate the dented pipeline and make repairs.	<b>NOE</b>

2002051148	<p>Master Plan for the Reconstruction and Expansion of Olive Pierce Middle School and Ramona High School Ramona Unified School District --San Diego</p> <p>The proposed project is a Master Plan for the reconstruction and expansion of OPMS and RHS on approximately 99.04 acres. The reconstructed and expanded facilities will accommodate a maximum of 1,600 middle school students and 3,500 high school students within the existing campuses and the Northern Parcel. Four Alternative Designs (Alternatives A-D) were analyzed on a program level within a PEIR. Each Alternative design accommodates varying student capacities for both campuses based on the on-site preservation of the wetlands and vernal pools. The Northern Parcel will include additional playfields for both schools and additional parking. In addition, the project proposes to extend and cul-de-sac 16th Street to be used as a pickup/drop off area. A walkway will also be constructed which will allow pedestrian access from 16th Street to the School campuses. A parking lot is also included at the terminus of 16th Street for Alternatives A and D. Expansion of the middle school campus includes expanded administration and gymnasium facilities, additional classrooms, restroom facilities, hardcourts, and parking. Expansion of the high school campus includes expanded administration and gymnasium facilities, additional classrooms, laboratories, restrooms, and a library/instructional media center.</p>	<b>EIR</b>	07/18/2003

	result of covered by the Plan. Components of the conservation program are now under consideration by USFWS, NMFS, SCW A and the other Applicants.		
2003062016	Approval of Alternative Compliance Plan to Permit Pacific Gas and Electric Company to use Interchangeable Emission Reduction Credits Bay Area Air Quality Management District San Francisco--San Francisco The Bay Area Air Quality Management District is conducting a review of the ACP proposed PG&E, for its Hunters Point Power Plant in San Francisco, California, to assess the potential significant adverse impacts of approving the ACP addresses the means that PG&E proposes to use to comply with the emission standards of District Regulation 9, Rule 11.	<b>NOP</b>	07/03/2003
2003062017	White Slough Water Pollution Control Facility (WPCF) Improvement Project Lodi, City of Lodi--San Joaquin The proposed project would include program-level CEQA approval of the City of Lodi Wastewater Master Plan and project-level CEQA approval for the proposed WPCF improvements including various on-site improvements, use of a new outfall to Bishop Cut to increase dilution (i.e., larger channel than Dredger Cut, where the existing outfall is located), the creation of treatment wetlands, and the potential use of additional land application sites. On-site improvements would generally consist of additional concrete basins and mechanical equipment, including new screens and pumps, two new aeration basins, a new secondary clarifier, and a new anaerobic digester. These improvements would allow the City to better oxidize, remove, and dispose of organic material contained in the wastewater. The creation of treatment wetlands would also provide for nitrate-nitrogen removal, heavy metal removal, temperature equalization, and temporary water storage. The proposed sites include the City-owned site (approx. 200 acres) located immediately west of the WPCF, or a portion of the Rio Blanco site (approx. 1,000 acres) located southwest of the WPCF (see Figure 2-Wetland and Land Acquisition Alternative Sites). Only one of the wetland sites would be selected.	<b>NOP</b>	07/03/2003
2003062019	Vineyards at Marsh Creek Brentwood, City of --Contra Costa Vineyards at Marsh Creek, LLC (i.e., the project applicant) proposes to build a mixed-use development on 481 acres of land include approximately 1,100 active adult units, approximately 150 single-family estate lots, and 45 acres reserved for a village center that includes commercial development, office development, a hotel and conference center, senior apartments, senior care facilities and multi-family residential units. In addition, an 18.5-acre parcel would be created for development of a winery with an amphitheater. The project includes the extension of Fairview Avenue through the site, and offsite across Marsh Creek for a new connection to Marsh Creek Road.	<b>NOP</b>	07/03/2003
2003062020	North Livermore Intensive Agriculture Program Alameda County Livermore, Dublin--Alameda Current General Plan policies permit, under certain circumstances, the creation of 20-acre minimum parcels as a density bonus to the otherwise applicable 100-acre minimum parcel size. This density bonus is conditioned on a number of specific requirements, including the requirement that new 20-acre parcels be used for cultivated agriculture, that there is an adequate supply of water to support	<b>NOP</b>	07/03/2003

2003068071	Closure of Fallsview Elementary School Redlands Unified School District --San Bernardino Closure of elementary school currently serving approximately 40 students and utilization of one bus for transportation of students to either of two existing elementary schools.	NOE	
2003068072	Las Virgenes Creek Prescribed Burn #5 (02/03-A-45) Parks and Recreation, Department of --Los Angeles Project consists of prescribed burns in non-native grassland vegetation communities. These burns will help control exotic vegetation and promote the restoration of native plant species and communities. This project is consistent with the Environmental Assessment approved as part of the Wildland Fire Management Plan for the Santa Monica Mountains National Recreation Area dated March 28, 1995.	NOE	
2003068073	Sonoma Valley Stables Manure Composting Project Resource Conservation District Petaluma--Sonoma Construction of a compacted, low permeability gravel pad on which horse manure is managed and composted. The pad measures approximately 84 feet by 78 feet. The pad has a compacted subsoil base, overlain with mirafi 500x moisture barrier fabric and topped with 4-6 inches of compacted well-graded crushed rock. The pad as a slope of approximately 2%, which drains surface water runoff into an adjacent vegetative filter strip.	NOE	
2003068074	Repairs at Service Connections OC-44 & OC-44B Along the East Orange County Feeder No. 2 & Installation of Acid Storage & Feed Systems at the Robert B. Diemer Metropolitan Water District of Southern California Irvine, La Verne, Yorba Linda--Orange, Los Angeles The Metropolitan Water District of Southern California (Metropolitan) proposes to replace the packing on the turnout valve and make repairs to the motor operator at Service Connection OC-44A. At Service Connection OC-44B, Metropolitan proposes to repair small leaks on the recirculating line and sample line valves. In order to complete repairs, Metropolitan will dewater the Irvine Ranch Water District's San Joaquin Reservoir outlet line and a portion of Mesa Consolidated Water District's line; treated water will be dechlorinated and discharged into a natural drainage. Metropolitan also proposes to install temporary influent acid storage and feed systems at the Diemer and Weymouth plants to reduce the amount of sludge produced by the water treatment process. At the Diemer Plant, the tanks and pump will be located in the existing chlorine shed and chemical trucks will offload at the existing chemical unloading pad. At the Weymouth Plant, the tanks and pump will be located in a containment area near the point of injection east of the reservoir. All storage and unloading will be properly contained and designed for 93 percent sulfuric acid.	NOE

2003062023	Folsom: Golf Links Substations and Interconnecting 69kV Power Line Loop Sacramento Municipal Utility District Folsom--Sacramento Install and operate 2 electric system distribution substations 69,000 volts stepped down to 12,000 volts and an interconnecting 69,000 volt power line.	<b>NOP</b>	07/07/2003
2003062025	Saggio Hills Annexation and Planned Development Plan Project Healdsburg, City of Healdsburg--Sonoma The proposed Saggio Hills planned development project includes the following: 1. Forty-eight (48) estate home sites on large acreage lots. Each lot would have specific building envelopes designated. Beyond this would be landscape zone. The remainder of the lot would be in private open space and unfenced. 2. A resort area concept plan has been presented for the northeast corner of the property. This would include one hundred (100) inn rooms or casitas with spa facilities, restaurant and recreational amenities. Alternately, the resort option could be replaced with twelve (12) additional single-family estate home sites. 3. Approximately thirty-five (35) acres of land adjacent to Healdsburg Avenue would be donated to the City for public park purposes. 4. Approximately fifty-three (53) acres surrounding Fox Pond has been sold to the Sonoma County Agricultural and Open Space District for passive park use (i.e., it would stay in a "forever wild" status). 5. 2.6 acres would be given to the City for affordable housing purposes. This would allow up to fifty (50) new dwellings, depending on the density chosen to develop. 6. Parkland Farms Boulevard would be extended from its eastern terminus in Parkland Farms Subdivision to loop through the project back to Healdsburg Avenue to the north. 7. Various public trails would be located through the project and adjacent to Passalacqua Creek. 8. The project would be completed in phases, with the earliest housing starting in Spring 2005 and would comply with the Growth Management program requirements. It would take at least 8-10 years to complete, possibly longer.	<b>NOP</b>	07/07/2003

The Planning Area includes the City's corporate limits and approximately 16,776 acres in the City's sphere of influence. The General Plan addresses the seven State mandated general plan elements, as well as other issues that are important to the community, including growth management, economic development, air quality, and community design. The General Plan establishes a vision for the City, emphasizing a family-focused lifestyle while promoting a strong local business community and agricultural, and manufacturing industries, so the community remains an attractive place to live, work, and play.</p>	<b>NOP</b>	07/07/2003
2003061045	<p>General Plan Amendment No. 653/Agricultural Permit No. 888/Change of Zone Case No. 6759/Specific Plan No. 331/Tentative Tract No. 30971 Riverside County Planning Department Riverside--Riverside</p> <p>General Plan Amendment No. 653 would change the Riverside County Comprehensive General Plan's Open Space and Conservation Map designations on the property from "Areas Not Designated As Open Space" to "Adopted Specific Plan," and amend the Jurupa Community Plan Land Use Allocation Map designation on the subject site from Agricultural/ Development Reserve (AG/DevR) to Specific Plan (SP) and to amend the text of the Comprehensive General Plan's Land Use Element to reflect the Specific Plan. Agricultural Permit No. 888 to cancel an existing Williamson Act Contract for parcel 134-140-008 and to remove 34.05 acres from Mira Loma Agricultural Preserve No. 4. Change of Zone No. 6759 proposes to change the zoning classification of the site from A-2-10 (Heavy Agriculture - 10 acre minimum lot size) to SP. Specific Plan No. 331 is a proposal consisting of 107 acres of single family residential development, including four different densities, totaling 482 residential units with an additional 11 acres of commercial development. The land use proposal for the Enclave Specific Plan proposes to designate 96 acres as residential with the following densities: 18 acres at 6.2 dwelling units per acre (du/ac) with a maximum of 113 dwelling units, 20 acres at 8.1 du/ac with a maximum of 165 dwelling units; 26 acres at 3.5 du/ac with a maximum of 93 dwelling units and 30 acres at 3.6 du/ac with a maximum of 110 dwelling units. Tentative Tract No. 30971 includes the subdivision and grading of approximately 96 acres into 482 single family residential lots of varying densities and the creation of lots to be used as park sites.</p>	<b>NOP</b>	07/07/2003
2003062032	<p>SU-01-2 San Joaquin Community Development Department --San Joaquin</p> <p>The subdivision is located on 19.72-acres within the urban community of Linden in San Joaquin County. The subdivision will consist of 70 residential lots ranging in size from 8,000 square feet to 16,000 square feet. The applicant has provided a "will serve" letter from the Linden County Water District stating that the district will provide water and sewer services to the subdivision. The applicant has proposed a 69,000 square foot community drainage basin (terminal drainage system) to serve the subdivision. Linden has a Master Drainage Plan; however, it is not known at this time when the system will be operational. Until such time, a temporary retention basin will serve the subdivision. The basin will be fenced and maintained by the Dept. of Public Works as part of County Service Area 24 (CSA 24). The</p>	<b>NOP</b>	07/07/2003

	subdivision site is currently used for agricultural purposes as a walnut orchard.		
2003062034	Nevada City Cohousing Project Nevada City Nevada City--Nevada Proposal of up to 48 dwelling units to be comprised of three housing types: 1) 34-unit condominium, 2) 7-lot single family subdivision, and 3) 7 detached second units for the single family lots.	<b>NOP</b>	07/07/2003
2003062035	Peaceful Oak Estates GP Amendment 98GPA-03, Zone Change 03RZ-10, Dev. Agreement 98DA-01, Tent. Subdivision Map 03TSM-60 and Tent. Subdivision Map 03TSM-61 Tuolumne County Community Development Dept. Sonora--Tuolumne 1. Resolution for General Plan Amendment 98GPA-03 to amend the General Plan land use designations of a 612.7+/- acre site. 2. Ordinance for Zone Change 98RZ-010 to rezone the 612.7+/- acre site. 3. Ordinance for Development Agreement 98DA-01 to allow the following: a. Creation of parcels less than 12,500 square feet in area within the R-3 zoning district. b. Gated roads to restrict access to portions of the subdivision. 4. Tentative Subdivision Map 03T-60 to divide the 612.7+/- acre site into 19 lots ranging in size from 0.05+/- to 81.76+/- acres in the area, including a 6.4+/- acres trail along the Sierra Railroad Grade through the site, 11.0+/- acres of dedication to the Cutis Creek School, a 42.19+/- acre recreational parcel, a 9.91+/- acre neighborhood commercial center, 527.22+/- acres of residential development, and 15.9+/- acres of road easements. 5. Tentative Subdivision Map 03T-61 to divide the 527.2+/- acre residential portion of the 612.7+/- acres site into 320 residential lots, including 51 lots ranging in size from 7,500 square feet in area, and 269 lots ranging in size from 0.6+/- to 5.49+/- acres and averaging 1.58 acres in area. The 527.22+/- acres of residential development consists of 12 large lots shown on Tentative Subdivision Map 03T-60, which range in size from 18.12+/- to 81.76+/- acres. It is proposed that each of these 12 large lots be developed as an individual small lot subdivision with a separate final subdivision with a separate final subdivision map consistent with Tentative Subdivision Map 03T-61 and the phasing plan adopted for the project.	<b>NOP</b>	07/07/2003
2003062039	Southhill Village Master Plan Grass Valley, City of Grass Valley--Nevada The proposed project is a Master Plan for a mixed-use development over 175+/- acres south of the City of Grass Valley. The project would represent development of a site historically used for industrial land uses such as mining, and milling. The project would consolidate the existing 15 parcels into nine parcels ranging in size from 1.6 to 76.5 acres. Subsequent residential development would convert one 33.5-acre parcel into 58 parcels - 57 single-family residential parcels and one open space parcel. Similarly, one 15-acre parcel would be subdivided into 80 residential parcels and one open space parcel.	<b>NOP</b>	07/07/2003

2001041007	View Point School Campus Expansion, City of Calabasas Calabasas, City of Calabasas--Los Angeles The project consists of a three-phase redevelopment-modernization project of an existing and fully operational 25-acre private school (grades K-12). Site improvements will include the demolition of 64,000 sf of existing facilities and approximately 132,500 sf of new construction. Site improvements will also include improvements to the internal driveway and parking lots; retrofit of an existing concrete drainage channel, and the construction of retaining walls up to 35' in height. The existing campus has an enrollment capacity of 1,300 students. This project will cap future enrollment to no more than 1.215 students.	FIN	
2001122053	I-880 / Coleman Avenue Interchange Improvements Santa Clara Valley Transportation Authority San Jose--Santa Clara The project consists of reconstructing the existing I-880/Coleman Avenue Interchange in San Jose for the purpose of improving traffic operations and safety. The entire interchange will be reconstructed, including replacing the existing bridge over I-880 and modifying all existing onramps and offramps. The project also includes modifications to Coleman Avenue, Airport Boulevard, and Newhall Street in the proximity of the interchange.	FIN

2002102117	<p>Proposed Montalvin Manor Redevelopment Project Contra Costa County Pinole, Richmond--Contra Costa</p> <p>The Environmental Impact Report has been prepared in connection with the proposed adoption, and implementation of a Redevelopment Plan, as defined by California Community Redevelopment Law, for the purposes of eliminating blight and revitalizing the Project Area. The Contra Costa Redevelopment Agency is proposing to (1) create the Montalvin Manor Redevelopment Project Area, and (2) adopt a Redevelopment Plan for the Project Area; and (3) an amendment to the County General plan to promote mixed use development on vacant parcels within the Project Area.</p> <p>The Project Area includes multiple parcels in the unincorporated area of Montalvin Manor (western Contra Costa County) approximately one-half mile south of the City of Pinole, bounded by Lettia Road on the north, Murphy Road on the east, San Pablo Avenue on the south and Christine Drive and Kay Road on the east.</p>	<b>FIN</b>	
2003061052	<p>2834 Colorado Avenue Santa Monica, City of Santa Monica--Los Angeles</p> <p>145 unit apartment building with 228 parking spaces in subterranean garage.</p>	<b>NOP</b>	07/08/2003
1991063038	<p>Central Los Gatos Redevelopment Project Plan Amendment Los Gatos, City of Los Gatos--Santa Clara</p> <p>The proposed project involves amending the Redevelopment Plan (the "Plan Amendment") for the Central Los Gatos Redevelopment Project (the "Project Area"), extending the deadline for the Redevelopment Agency of the Town of Los Gatos (the "Redevelopment Agency") to commence eminent domain proceedings by twelve years. The Redevelopment Plan was adopted by the Town Council of the Town of Los Gatos by Ordinance No. 1882, dated November 25, 1991, as amended by Ordinance No. 1992, adopted on December 5, 1994. Section 33333.4(g)(2) of the California Community Redevelopment Law (CRL; Health and Safety Code Section 33000 et seq.) which governs the adoption, implementation, and amendment of redevelopment plans, provides that the authority of a redevelopment agency to use eminent domain to acquire property in a redevelopment project area expires twelve years after adoption of the redevelopment plan or the last amendment to the plan establishing the eminent domain authority.</p>	<b>Neg</b>	07/08/2003
2002071150	<p>Big Pine Ditch Water Supply Los Angeles County Department of Water and Power --Inyo</p> <p>The proposed amendment of the Water Agreement, the Los Angeles Department of Water and Power (LADWP) will make water available for the ditch system via diversions from Big Pine Creek, from a new well in Bell Canyon, and from diversions from the Bell Canyon Ditch. Surface water flow in Big Pine Creek will be augmented with groundwater pumped from Well 415, and the surface water flow in the Bell Canyon Ditch will be augmented with groundwater pumped from a new well to be constructed by the LADWP west of Big Pine in Bell Canyon ("the Bell Canyon Well"). The flow in Bell Canyon will be augmented immediately above the ditch system's Bell Canyon headgates.</p>	<b>Neg</b>	07/08/2003

<b><u>Documents Received on Monday, June 09, 2003</u></b>			
	abandoned road, then turn along the eastern edge of a detention pond, running adjacent to, but outside of the top edge of the detention pond. An 8-inch PVD pipe would be laid in the trench and the trench then backfilled and compacted. The road would be paved at a later date to provide access to the adjacent agricultural fields. The proposed project is needed to take the existing facilities off septic systems and run the sewage to a sewage treatment facility.		
2003041121	1095 Marsh Street (ER 15-03) San Luis Obispo, City of San Luis Obispo--San Luis Obispo Construction of a park at the southwest corner of Santa Rosa Street and Marsh Street. Approximately half of the 11,000 square foot site is within the San Luis Obispo Creek channel. The site was previously developed with a service station and later, an auto repair facility. It is currently vacant except for a concrete wall that divides the creek from the previously developed areas of the site. The proposed park includes an entry plaza, pedestrian walkways, a pavilion surrounded by a manmade pond on three sides, a bridge across the pond, a cantilevered creek overlook, public art, benches, and landscaping.	<b>NOD</b>	
2003042132	Sediment Removal Project at PM 23.5 on Highway 1 Caltrans #5 Santa Cruz--Santa Cruz The project will remove accumulated sediment from the existing culvert outlet and drainage channel of Little Baldwin Creek. The minimum amount of sediment necessary to clear the headwall and culvert and reestablish flow will be removed. The sediment removal project is needed to restore unimpeded flow through the existing culvert and drainage in order to prevent damage to the highway facility.	<b>NOD</b>	
2003042163	Val Verde/Dick Cook Pipeline Project Placer County Water Agency Loomis--Placer A new water transmission line of approximately 5,000 linear feet of 24-inch diameter pipeline and 8,700 linear feet of 18-inch diameter pipeline under existing roadways (Val Verde Creek and Dick Cook Roads) with the exception of an aerial crossing crossing over Miners Ravine.	<b>NOD</b>	
2003069018	Mission Soledad Shopping Center Fish & Game #3 Soledad--Monterey The proposed project would construct a storm drain system for the proposed shopping center and connect the new system into the existing outlet. The new storm drain system would be constructed using 48-inch diameter high-density polyethylene pipe (HDPE) tied into the existing outlet, which would be replaced using a 60-inch HDPE culvert with a flared end section. A concrete bulkhead would be constructed to support and anchor the outlet in place. Rock slope protection, approximately 12-inches in diameter, would be placed at the outlet to dissipate the energy of water exiting the flared end section. Oil and grease separators would be installed in the system and maintained at appropriate intervals to reduce or eliminate the introduction of petroleum-based pollutants into the Salinas River. A minor amount of riparian willow habitat would be trimmed to allow access to the site. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number 1600-2003-0122-3 pursuant to Section 1603 of the Fish and Game Code to the project operator.	<b>NOD</b>

<b><u>Documents Received on Monday, June 09, 2003</u></b>			
2003068091	Meadow Creek Bank Repair Fish & Game #3 Arroyo Grande--San Luis Obispo A storm drain inlet along Oak Park Boulevard, adjacent to the pond, became clogged with tree roots that trapped debris during a storm in early 2003. The drain became overwhelmed and storm water flowed over the sidewalk, undercutting the sidewalk and cutting a large gully into the road shoulder beside the pond. The proposed project would fill the existing gully with approximately 30 cubic yards of locally obtained material and cover the site with loose-weave jute netting to stabilize the soil surface, then revegetated the site with locally obtained grass seeds. The project is necessary to stabilize the bank of the pond.	NOE	
2003068092	Tenet Health Systems Community Hospital Fish & Game #3 San Luis Obispo--San Luis Obispo The proposed project would construct a berm around the swale to create a drainage basin that would accommodate increased storm water runoff and expand the detention capacity of the area for groundwater recharge.	NOE	
2003068093	Santa Margarita Pipeline Replacement Project (SCGBH-03-066) Fish & Game #3 --San Luis Obispo Approximately 10,000 linear feet of 6-inch diameter natural gas pipeline would be abandoned in place and replaced with approximately 29,000 linear feet of 10-inch pipeline. The new pipeline would be installed within right-of-way owned by the California Department of Transportation and/or San Luis Obispo County.	NOE	
2003068094	San Ramon Creek Fish & Game #3 Alamo--Contra Costa The operator proposes to repair storm damaged stream bank protection and protect bridge abutments, along San Ramon Creek in Alamo, Contra Costa County. Issuance of a Streambed Alteration Agreement Number 1600-2003-0343-3 pursuant to Fish and Game Code Section 1601.	NOE	
2003068095	Maintenance of 20-plus Crossings on Feliz Creek Fish & Game #3 Ukiah--Mendocino Project consists of maintenance of more than 20 mostly shallow grade crossings on Feliz Creek and its tributaries. The maintenance will be done by rearrangement of existing gravel and cobble at existing sites, and clearance of debris deposited by winter flows. Issuance of a Streambed Alteration Agreement Number R3-2002-1004 pursuant to Fish and Game Code Section 1603.	NOE	
2003068096	Highlands Harbor Sewer Line Replacement Fish & Game #3 Clearlake--Lake The project involves the placement of approximately 1,800 feet of pipeline for raw sewage.	NOE	
2003068097	Russian River Water Diversion Fish & Game #3 --Mendocino Project is to install a water pump and intake pipe in order to divert river water for agricultural purposes. Issuance of a Streambed Alteration Agreement Number 1600-2003-0067-3 pursuant to Fish and Game Code Section 1603.	NOE

2003068158	Environmental Sensing and Communications Energy Commission La Jolla-- Meterological/hydrological data logging/sensing hardware that can be installed in remote locations will be designed, constructed tested, and operated through this project. This low cost, flexible environmental monitoring system addresses impacts of California electricity system on public health costs/risks.	<b>NOE</b>	
2003068159	Preliminary Economic Analyses of Climate Change Impacts and Adaptation, and GHG Mitigation Energy Commission Berkeley-- UC Berkeley will perform preliminary work on economic analyses on climate change impacts. The work will 1) apply a computable general equilibrium model of the California economy to estimate economic impacts on the stat of climate change and measures to abate greenhouse gases; 2) conduct research to gauge how technological change may affect these impact; 3) analyze underlying determinants of energy demand and their implications for the State's response to climate change 4) study detailed economic aspects of the interrelations among potential climate change, California's engineered water infrastructure and water use for agriculture, hydroelectric generation and household use.	<b>NOE</b>	
2003068160	PIER Food Industry Energy Research - Program & Project Management Energy Commission Davis-- The PIER Food Industry Energy Research program funds proposals encouraging energy efficiency, cost savings, reliability & environmental stewardship in the California food processing industry. The California Institute of Food and Agicultural Research will be the technical amdinistrator and provide technical expertise and assistance in all facets of the program.	<b>NOE</b>	
2003068161	Demonstration of Energy Efficient Ultra Low NOx Burner (UNLB) Control Technology Energy Commission --Santa Clara The PIER Food Industry Energy Research (FIER) program is funding proposals encouraging energy efficiency, cost savings, reliability & environmental stewardship in the CA food processing industry. The contractor proposes to develop a control strategy that will allow the use of smaller blowers in boiler to use less electrical energy while meeting stringent emission limits.	<b>NOE</b>	
2003068162	Waste Heat Driven Chilling Technology for Can Cooker/Cooler Optimization Energy Commission Modesto-- The PIER Food Industry Energy Research (FIER) program is funding proposals encouraging energy efficiency, cost savings, reliability and environmental stewardship in the CA food processing industry. Del Monte Foods & LBNL propose to develop a method for optimization and improving the system energy efficiency by using waste heat to provide process cooling (absorption cooling) for cooker/coolers commonly used in fruite & vegetable processing plants.	<b>NOE</b>

2003068163	Infrared Drying of Rice to Improve Energy Efficiency and Disinfestation Energy Commission Davis-- The PIER Food Industry Energy Research (FIER) program is funding proposals encouraging energy efficiency, cost savings, reliability & environmental stewardship in the CA food processing industry. This project will use two types of laboratory infrared dryers to conduct experiments on the infrared drying of rice. This work will establish optimum operating parameters and effectiveness of infrared treatment on disinfestations & reducing microbial counts.	<b>NOE</b>	
2003068164	Demonstration of Waste Heat Driven Organic Rankine Cycle for Electricity Generation in the Food Industry Energy Commission --Nevada The PIER Food Industry Energy Research (FIER) program is funding proposals encouraging energy efficiency, cost savings, reliability and environmental stewardship in the CA food processing industry. This project uses waste heat from the potato frying process to generate electricity.	<b>NOE</b>	
2003068165	Development of an Integrated Benchmarking and Energy and Water Management Tool For The Wine Industry Energy Commission Berkeley-- The Food Industry Energy Research Program is funding proposals encouraging energy efficiency, cost savings, reliability and environmental stewardship in the California food processing industry. In this project, Lawrence Berkeley National Lab will develop a benchmarking and energy-efficiency screening tool to help wineries easily gain knowledge of and improve their energy and water efficiency performance.	<b>NOE</b>	
2003068166	Demonstration of Waste Heat Driven Adsorption Chilling in the Food Industry Energy Commission San Ramon, Visalia-- The PIER Food Industry Energy Research (FIER) program is funding proposals encouraging energy efficiency, cost savings, reliability and environmental stewardship in the California food processing industry. This project demonstrates the use of new adsorption refrigeration technology for food processing. Adsorption technology uses low temperature waste heat to produce refrigeration.	<b>NOE</b>	
2003068167	Improved Heat Exchange Surface With Reduced Fouling Energy Commission -- The PIER Food Industry Energy Research (FIER) program is funding proposals encouraging energy efficiency, cost savings, reliability and environmental stewardship in the CA food processing industry. This project tests and demonstrates the effectiveness of Ni-P-PTFE coating on heat exchanger surfaces to reduce fouling. Coated exchangers will be compared with stainless exchangers by measuring heat transfer and pressure drop characteristics.	<b>NOE</b>	
2003068168	Exterior Painting Parks and Recreation, Department of --Sacramento Remove loose and chipped paint; prime the surface with acrylic based primer; and paint with two coats of acrylic latex flat wall paint at Heilbron House to protect the wood surfaces and trim from moisture and solar radiation. Minor amounts of lead	<b>NOE</b>

2002102021	JMA Planned Unit Development (P99-117/118) Sacramento, City of --Sacramento The JMA Planned Unit Development project includes a Tentative Master Parcel Map to subdivide 99.1+/- gross vacant acres into 16 master parcels for residential, commercial, park and open space uses, a Tentative Subdivision Map to subdivide 99.1+/- gross vacant acres into 180 standard single family lots, 231 motorcourt lots, two park lots, a convenience commercial lot, two multifamily lots, open space, landscape corridor and canal lots and a Subdivision Modification to deviate from standard street sections.	<b>NOD</b>	
2003011150	Santa Ana Creek Bridge Replacement San Benito County Hollister--San Benito The proposed project consists of the replacement of the Fallon Road Bridge (Bridge Number 43C-0032) over the Santa Ana Creek, in order to restore vehicular access across the Santa Ana Creek and to increase the level of earthquake safety for traffic on Fallon Road. The new bridge will essentially be constructed along the original alignment, within the existing right-of-way. The proposed bridge will be approximately 40'-8" wide, 60' long and will have two 12' lanes and 8' shoulders. The replacement bridge will be approximately six feet wider on each side than the existing bridge. The two-span bridge will be built on the same alignment as the existing bridge and will require the contractor to install six piles across the creek channel and associated wetlands, which is a reduction in the number of piles from the existing bridge.	<b>NOD</b>	
2003032086	Fulton Lane Storm Drain St Helena, City of St. Helena--Napa Installation of new underground storm drain pipes, storm drain inlets and a new storm drain outfall into the Napa River.	<b>NOD</b>	
2003041020	Railroad Corridor Pedestrian Beach Trail San Clemente, City of San Clemente--Orange The project is the adoption of the City of San Clemente Initial Study/Mitigated Negative Declaration for the Railroad Corridor Pedestrian Beach Trail in the City of San Clemente. The project consists of construction of a 2.37 mile pedestrian beach trail in the City of San Clemente. The trail will be constructed generally as a five foot wide trail and may have a shoulder on one or both sides achieving a total width of 10 feet to allow for periodic railroad and City maintenance.	<b>NOD</b>	
2003041176	Re-drilling of District Well No. 22A West San Bernardino County Water District Rialto--San Bernardino Replacement of District Well No. 22 at the new location stated above. This well is being replaced due to contamination in the ground water basin under the existing well location. The construction will include a pump enclosure.	<b>NOD</b>	
2003051011	Rancho Buena Vista High School Stadium Project Vista City Unified School District Vista--San Diego The District proposes to develop a 6,000-seat sports field stadium to replace existing facilities located in the western portion of the existing high school campus. Accessory structures include two ticket booths and two single-story	<b>NOD</b>

2003061059	Inglewood High School Inglewood Unified School District Inglewood--Los Angeles The modernization and new construction of Inglewood High School to serve 2,754+/- students grades 9-12 in the Inglewood Unified School District. The project consists of the construction of three new two-story buildings.	<b>Neg</b>	07/10/2003
2003062063	Alpine Knolls Subdivision (EIAQ-3677) Placer County Planning Department --Placer Proposed subdivision of 27 acres into 19 residential parcels ranging in size from 14,866 sq. ft. A total of 12.38 acres is proposed to be set aside, as open space lots commonly owned by the HOA. Project includes rezoning to increase the open space zoning on the parcel from 4.6 to 12.38 acres.	<b>Neg</b>	07/10/2003
2003062064	Steve's Septic Service - APN: 511-111-46 Case Nos.: CUP-01-17 / VAR-01-06 / SP-02-62 Humboldt County --Humboldt A Conditional Use permit for a septage handling and dewatering facility with a currently load of 1.6 million gallons per year (mgy) and a capacity of 4.5 mgy. At the higher capacity, an estimated 18 vehicle trips to the site could be expected. Septage handling and dewatering describes a process whereby effluent liquid waste is removed ("dewatered") from the solids prior to disposal. This process occurs within secure containment systems (tanks and containment bunker) and is not exposed to the environment. The dewatered septage "cake" is to be transported to an approved off-site location, currently Gerlach, Nevada, to be utilized by a commercial nursery. The effluent liquid waste is to be treated at the McKinleyville Community Service District (MCSD) wastewater treatment plant. The applicant is also seeking variance approval to address sideyard setback locations for the current office and garage/shop. Both structures are located within the required 30-foot side yard setback. A Special Permit will be required to reduce the setback from the Streamside Management Area as well.	<b>Neg</b>	07/10/2003

<b><u>Documents Received on Thursday, June 12, 2003</u></b>			
2003061061	La Puerta Elementary School Claremont Unified School District Claremont--Los Angeles The Claremont Unified School District proposes to develop an elementary school with a 600-student capacity and 45 associated teachers and administrators on a 9.8-acre site at 2475 N. Forbes Avenue in the City of Claremont. The proposed school would serve students of the kindergarten through sixth grades. Total proposed building area is 56,738 square feet (not including future buildings). The proposed site is currently the location of an adult school run and maintained by Claremont Unified School District.	<b>Neg</b>	07/11/2003
2003061063	Fieldstone Communities-Chow Parcel-Tentative Tract Map (TTM) 16487 Chino Hills, City of Chino--San Bernardino The proposed Tentative Tract Map (TTM) 16487 would replace the existing Vesting Tentative Tract Map (VTM) 15898, previously approved by the City for the project site, known as the Chow parcel. The new TTM 16847 proposes to redesign the existing plan to reduce the amount of grading and accommodate the latest federal water quality regulations, but retains the density and development character of the previously approved map. TTM 16487, similar to the existing map, would permit the development of 125 single family units on the 150-acre site. Development would be clustered in the northern portion of the site, currently zoned R-S and permitting a residential density of 2.0-6.0 dwelling units per acre. Minimum lot size of the dwellings would be 7,200 square feet, consistent with the R-S zone Residential development standards.	<b>Neg</b>	07/14/2003
2003061064	County Service Area 70 Zone J Water System Improvements San Bernardino County Office of Special Districts --San Bernardino Upgrading of an existing reservoir plant site, the construction of a new domestic water well, and a pipeline connecting the two facilities. The new reservoir to be constructed adjacent to two existing reservoirs will be 1.75 MGD. The well will produce approximately 1,000 gpm and be drilled to approximately 1,100 in depth. The interconnecting 12-inch diameter pipeline will be approximately 1,500 feet in length.	<b>Neg</b>	07/11/2003
2003061065	TM 5267RPL, Log No. 01-09-057; Roberts Residential Subdivision San Diego County Department of Planning and Land Use --San Diego The project proposes a major subdivision of 53.34 gross acres into 8 residential lots ranging from 2.0 to 14.11 net acres. The subdivision is located at the northwest corner of Archie Moore Road and Salt Mine Road. The project will take access from Archie Moore Road. The vegetation on-site is mostly undisturbed and consists of chamise chaparral with oak woodland along the drainage, which traverses the center of the sites in a north-south direction. On-site biological open space easements are proposed to protect sensitive habitats. The remainder of the property supports mixed chaparral vegetation with a large number of rock outcroppings. The project will be served by the Ramona Fire Department CDF, Ramona Municipal Water District, Ramona Unified School District, and the dwelling units will have septic on-site.	<b>Neg</b>	07/11/2003

2002062002	<p>University Park Stockton, City of Stockton--San Joaquin</p> <p>The project proposes the creation of a mixed-use development and a rezone of the site to MX (Mixed Use). The project involves the redevelopment of an existing site in the Midtown area of Stockton that formerly housed the Stockton Development Center. The State closed the Center in 1995 and transferred the site to the California State University (CSU) system in 1997. Due to the age of the buildings and history of the site, there historic resources. The existing buildings would be reused to the extent possible and or practical, with the remainder demolished. New buildings and other development on the site would be subject to the University Park Master Plan adopted as part of the project. An elementary school for the Stockton Unified School District is proposed on the southern portion of the site. CSU would occupy approximately 9 acres. It is anticipated that 359 residents and 1,830 employees would be accommodated on the site. The project would be phased in response to market conditions.</p>	EIR	07/28/2003
2002091041	<p>Moreno Valley Auto Mall Specific Plan Amendment No. 4 (SPA No. 4) Moreno Valley, City of Moreno Valley--Riverside</p> <p>SPA No. 4 proposes a revised land use concept for the approximately 71.86 acre "Phase III" portion of the Moreno Valley Auto Mall (MVAM). <b><u>Documents Received on Friday, June 13, 2003</u></b>			
2001121098	San Joaquin Reservoir Conversion to Reclaimed Water Seasonal Storage Project Irvine Ranch Water District Newport Beach--Orange IRWD proposes to convert the existing San Joaquin Reservoir to reclaimed water storage to allow IRWD to maximize the use of reclaimed water through additional seasonal storage. Major design components required to convert the San Joaquin Reservoir include 1. Modifications to the reservoir for repairs; 2. Construction and operation of three pump stations, one at the reservoir and two offsite; 3. Construction of less than one mile of reclaimed water pipeline; and 4. Construction of a disinfection facility at the reservoir. Construction of the proposed project is anticipated to begin in 2003 and be completed by 2005.	<b>FIN</b>	
2002101112	Interstate 15 Managed Lanes Project (SAA#R5-2003-0117) Caltrans #11 San Diego, Escondido--San Diego The California Department of Transportation will improve freeway capacity and transit opportunities on Interstate 15 by enhancing both freeway and high occupancy vehicles (HOV) facilities. A strategy called Managed Lanes is being pursued to provide capacity for buses and carpools. In addition, if approved by FHWA, the value-pricing program would allow single occupancy vehicles (SOV) to utilize excess capacity on the lanes. The managed lanes will be constructed within the existing freeway median, though some outside widening is required. Some new right-of-way will be required for temporary construction easements, grading and drainage easements, retaining wall footing easements, and soil-nail and tieback easements. There will be no acquisition of homes or businesses. On the four proposed managed lanes, a moveable median barrier will be utilized that will allow for additional traffic lanes in the peak direction. Traffic will flow in both directions with a minimum of one lane. Fixed concrete barriers will separate the managed lanes from the main lanes with access openings at two to three mile intervals. Four direct access ramps are also proposed.	<b>FIN</b>	
2003021037	Repair Undercut Retaining Wall on Mission Creek Caltrans #5 Santa Barbara--Santa Barbara The proposed project will repair an undercut wing-wall by placing 1/2-ton rock along the base of the retaining wall. The purpose of this project is to protect both the wing-wall and the adjacent Highway 101 northbound bridge and thereby provide a safe travel-way for the public.	<b>FIN</b>	
2003052001	Weaverville Shoulder Widening Caltrans #2 --Trinity Safety and operational improvements on a 0.5 mile section of highway 299 in the town of Weaverville. The proposed project will increase the width of the highway to accommodate shoulder widths.	<b>FIN</b>	
1992012010	Eisenhower Medical Center Specific Plan Amendment No. 3 Rancho Mirage, City of Rancho Mirage--Riverside EMC SP Amd #3 proposes expansion of EMC and associated accessory and parking facilities, on 106+/- acres at 39000 Bob Hope Drive in the City of Rancho Mirage, Riverside County, California. Development on the EMC campus currently totals approximately 1,031,106 square feet, excluding parking. Development proposed under SP Amd #3 will result in construction of approximately 542,622	<b>NOP</b>	07/14/2003

	square feet of expanded development, excluding parking, totaling 1,573,728 sq. ft. Certain components described in SP Plan Amd #3 were approved for development and substantially conform to previous approvals under SP Amd #2 but have not yet been constructed. SP Amd #3 also proposes new and/or expanded development, not previously approved. It also proposes revisions to parking rates for medical offices, maximum building height revision from 4 to 5 stories, and setback revisions. Proposed development will conform to the goals, objectives and policies of the EMC Specific Plan.		
2003061073	Whittwood Mall Specific Plan Whittier, City of Whittier--Los Angeles Specific Plan for 66.4 acre area. Up to 900,000-sq. ft. of retail and 183 units.	<b>NOP</b>	07/14/2003
2003061075	Program Environmental Impact Report (PEIR) for the 2004 Regional Transportation Plan (RTP) Southern California Association of Governments --Imperial, Los Angeles, Orange, Riverside, San Bernardino, ... SCAQ is required to update and revise the RTP and the RTP PEIR at least once every three years. SCAG is currently preparing the 2004 RTP and the RTP Program Environmental Impact Report. The 2004 RTP and PEIR are being developed as part of an innovative planning process that integrates transportation, land-use, and the environment. The process, known as PILUT-Planning for Integrated Land Use and Transportation is being guided by Compass Growth Visioning, which is participatory effort to help move Southern California towards a more sustainable future.	<b>NOP</b>	07/14/2003
2003062071	Southtown Project Vacaville, City of Vacaville--Solano The subject of the forthcoming EIR will include the entire Southtown Project (Southtown Property and Moody Property), including roadways, infrastructure, and proposed land uses.	<b>NOP</b>	07/14/2003
2003062074	Tomales Bay State Park General Plan Parks and Recreation, Department of --Marin The general plan provides long-term goals, guidelines, and directions for the operation, development, management, interpretation and resource management of this state park.	<b>NOP</b>	07/14/2003
2003061071	CUP 02-251 Los Angeles County Department of Regional Planning Santa Clarita--Los Angeles The proposed project is a request to allow the construction and operation of a four-story stucco hotel with a 1,217 s.f. porte cochere. The hotel will have 112 guestrooms, a parking lot with 117 parking spaces, an 8" high CMV retaining wall, a pool including a concrete deck, a trash enclosure, and a pole sign as well as a monument sign wall. The proposed establishment will be a 24-hour operation with a maximum of four employees working each of the three shifts.	<b>Neg</b>	07/14/2003

2003061072	CUP/ZC/PA 03-113 15554 Gale Avenue, Hacienda Heights, CA 91745 Los Angeles County Department of Regional Planning Industry--Los Angeles The proposed project is a request for a Zone Change from R-2 DP (Two Family Residence, Development Program) to R-3 DP (Limited Multiple Residence, Development Program), a Local Plan Amendment from U-4 (up to 22 units/acre) to U-5 (up to 35 units/acre), and a Conditional Use Permit for a Housing Density Bonus in order to allow for the construction of a seventy-five one-unit affordable housing apartment complex for very low and low income senior citizens. There will be seventy-four one-bedroom senior apartments, one two-bedroom manager's apartment, and a community room/club house. The apartment building will be two- and three- stories (not exceeding 35-feet in height). A six-foot concrete block wall will border the site except on the north property line. There will be a total of fifty-five parking spaces provided at grade level.	<b>Neg</b>	07/14/2003
2003061074	Lamb Canyon Sanitary Landfill Riverside County Waste Management Department Beaumont, San Jacinto--Riverside The project is a proposal to expand Lamb Canyon Landfill, increasing daily disposal capacity from 1,900 tons per day (tpd) to 3,000 tpd, increasing overall disposal capacity from 8.26 to 13.53 million tons, expanding disposal footprint from 137.8 to 144.6 acres, expanding permit area from 178.1 to 353.4 acres, as well as, other ancillary improvements (i.e. relocation of HHW CAF, new field office, restrooms, water tank, etc.).	<b>Neg</b>	07/14/2003
2003062072	EG-03-415 9355 East Stockton Boulevard Elk Grove, City of Elk Grove--Sacramento Rezone of the 3.27+/- acre parcel from RD-5 (Low-Density Residential) to Business Professional (BP). The rezone is to provide consistency between the Zoning Map and the General Plan Land Use Policy Map.	<b>Neg</b>	07/14/2003
2003062073	Revision, Northern Area Portion, Master Plan of Drainage Lathrop, City of Lathrop--San Joaquin Revision of existing storm drainage master plan, proposal for outfall, collection lines, pump stations, and force mains serving a portion of the master plan area.	<b>Neg</b>	07/14/2003
2003062075	Cupid Row Canal Vegetation / Sediment Removal Project San Mateo County San Bruno--San Mateo The San Mateo County DPW proposed to remove vegetation and accumulated sediment from Cupid Row Canal as part of on-going canal flood control maintenance activities. The purpose of the proposed project is to restore the canal to its original design flow capacity in order to prevent flood of adjacent areas.	<b>Neg</b>	07/14/2003
2003064003	Elk Valley Rancheria Stary Ranch Fee- To Trust Environemtal Assessment Bureau of Indian Affairs, Sacramento Area Crescent City--Del Norte The Proposed Action consists of the acquisition of two parcels, totaling 179+/- acres, into federal trust status on behalf of the Tribe. The Tribal Government proposes to use the Stary Ranch for a cemetery. No structures, landscaping, or improvements are planned, with the exception of a perimeter fence. Existing roadways serving the property would provide access to the cemetery. The Tribe plans to continue limited cattle grazing.	<b>Neg</b>	07/14/2003

<b><u>Documents Received on Friday, June 13, 2003</u></b>			
1997112030	Bruceville Road Widening Sacramento County Elk Grove--Sacramento The proposed project would widen Bruceville Road between Elk Grove Boulevard and Ackley Road from two-lanes to four-lanes with landscaped easements and medians.	<b>NOD</b>	
2002101112	Interstate 15 Managed Lanes Project (SAA#R5-2003-0117) Caltrans #11 San Diego, Escondido--San Diego The California Department of Transportation will improve freeway capacity and transit opportunities on Interstate 15 by enhancing both freeway and high occupancy vehicles (HOV) facilities. A strategy called Managed Lanes is being pursued to provide capacity for buses and carpools. In addition, if approved by FHWA, the value-pricing program would allow single occupancy vehicles (SOV) to utilize excess capacity on the lanes. The managed lanes will be constructed within the existing freeway median, though some outside widening is required. Some new right-of-way will be required for temporary construction easements, grading and drainage easements, retaining wall footing easements, and soil-nail and tieback easements. There will be no acquisition of homes or businesses. On the four proposed managed lanes, a moveable median barrier will be utilized that will allow for additional traffic lanes in the peak direction. Traffic will flow in both directions with a minimum of one lane. Fixed concrete barriers will separate the managed lanes from the main lanes with access openings at two to three mile intervals. Four direct access ramps are also proposed.	<b>NOD</b>	
2003021037	Repair Undercut Retaining Wall on Mission Creek Caltrans #5 Santa Barbara--Santa Barbara Maintenance project to repair an undercut retaining wall on Mission Creek for Highway 101.	<b>NOD</b>	
2003022118	S02-20 El Dorado County --El Dorado Construction of a wireless telecommunications facility to include ground-mounted equipment and a 102-foot-tall cell tower built to resemble a pine tree.	<b>NOD</b>	
2003031053	15th Street Townhomes Newport Beach, City of Newport Beach--Orange 42 two-story townhomes in a gated area on the 2.52-acre property at 869-875 W. 15th Street.	<b>NOD</b>	
2003052001	Weaverville Shoulder Widening Caltrans #2 --Trinity The project proposes to improve safety by widening the shoulders along the highway between Mill Street and Mountain View Street. As a result of the shoulder widening, utility relocation and reconstruction of the existing curb, gutter and sidewalks will be necessary. A free-spanning structure will be constructed on both sides of the East Weaver Creek Bridge to accommodate pedestrian traffic.	<b>NOD</b>

2003052013	Sustainable Restoration Technologies for Bay/Delta Tidal Marsh and Riparian Habitat Department of Fish and Game (OSPR) Rio Vista--Sacramento This sustainable restoration project will address the joint concerns of local farmers and reclamation districts regarding levee stability, bank protection, flood control, and environmental restoration. Expected environmental benefits, in terms of habitat, include the protection and enhancement restoration. Expected environmental benefits, in terms of habitat, include the protection and enhancement of up to 20,000 linear feet of riparian and instream habitat.	<b>NOD</b>	
2003069028	County Sanitation District #14 of Los Angeles County, Trunk Sewer Project Los Angeles County Sanitation District Lancaster--Los Angeles Construction of Rosamond Outfall Relief Trunk Sewer, Section 1; Rosamond Outfall Replacement Trunk Sewer, Section 2; and Trunk "F" Replacement Sewer, Section 1 (collectively referred to as the "Trunk Sewer Project") consist of the construction of approximately 33,200 feet of 54 to 78-inch diameter RCP sewer and appurtenant structures. Standard open-trench construction methods will be utilized along the entire project alignment, except in two portions that will require jacking. The construction will last approximately 24 to 36 months and is scheduled to commence May 2003.	<b>NOD</b>	
2003068214	2003 Paving and Drainage Project CIP 60 03 04 Truckee, City of Truckee--Nevada Overlay, improve drainage and reconstruction of various town streets.	<b>NOE</b>	
2003068215	Bacon Island - Tidal and Electrical Conductivity Station Repair/Replacement Fish & Game #1 Stockton--San Joaquin An existing tide and electrical conductivity (EC) station on Old River at Bacon Island has received severe cathodic corrosion to the point where it is now a safety issue for the personnel that maintain the station and a potential loss of thousands of dollars of streamflow measuring and monitoring equipment. The proposed project will repair the station by replacing the existing 36" galvanized Corrugated Metal Pipe (CMP) stilling well base with a new 48" galvanized CMP stilling well. The base of the existing 36" stilling well will have to be removed from the river bed and the base of the 48" stilling well will have to be embedded into the river at the same location. At the same time of the stilling well replacement, new intake tubes and an EC Probe carrier pipe will be run into the water from the new stilling well.	<b>NOE</b>	
2003068224	Taylor Yards, Parcel G-1 Acquisition General Services, Department of Los Angeles, City of--Los Angeles The proposed project consists of an acquisition of approximately eighteen (18.233) acres of land, which is located adjacent to the easterly side of the Los Angeles River and immediately south of State Highway 2. The project will transfer the ownership of land to the California Department of Parks and Recreation to ensure preservation of open space. Minor alterations to the land will be made to enhance the property for public uses as a park.	<b>NOE</b>
